

## Opening of Mazak Dallas Technical Center

Yamazaki Mazak has announced the opening of the Mazak Dallas Technical Center in Dallas, Texas on Jan. 31<sup>st</sup>, which is the eightieth new support basis in the world.

Reflective of its ardent commitment to superior localized customer service and support, Mazak opened a new second facility in Texas. Joining the company's existing Southwest Technology Center in Houston, the new Mazak Dallas Technical Center will serve the Northern Texas region.

"The new Dallas Technical Center gives Mazak a commanding Texas presence in terms of manufacturing technology and customer support" Mr. Dan Janka, president of Mazak said. "Northern Texas manufacturers in the defense, aerospace, medical, automotive, energy and construction industries will especially benefit from even more readily accessible technical, engineering and applications expertise from Mazak"

The approximately 8,000-sq-ft Dallas facility provides additional space for customer programming classes, machine demonstrations, test cuts and machining system run-offs, as well as regularly scheduled Mazak DISCOVER events. With the addition of this new facility Mazak, along with its Value Inspired Partner (VIP) companies, can quickly deliver today's most advanced and complete machining systems-Multi-Tasking, full 5-axis, Horizontal and Vertical-to keep Texas customers competitive and productive.

Including the new Dallas Technical Center, Mazak has established a global network of 80 support bases in order to provide unsurpassed sales, service and technical support and manufacturing solutions to customers all over the world.
