

Field Service Technician

Mazak Optonics Corporation is a World Class laser machine tool manufacturer and part of the Yamazaki brand that is the world's #1 machine tool manufacturer.

Mazak Optonics Corporation presently has openings for Field Service Technicians in the continental USA and Canada. Successful candidates will possess a positive attitude and take pride in their work. We are looking for candidates who would enjoy travelling 100% of the time Monday through Friday and who thrive in a dynamic work environment. No two work weeks are the same, including working with different customers, machines, machine symptoms. This type of work is not for everyone – is it for you?

Tools, uniforms, and laptop are provided. Cell phone expenses are reimbursed. Plentiful overtime is available if desired and On the Job Training is provided by some of the industry's most experienced technicians.

This position requires a great work ethic, honed customer service skills and the ability to embrace sudden changes in work schedules and scope. Mazak Optonics Corporation believes our customers deserve the best customer service in the industry and believes in the technicians that carry and deliver this message to our customers. We actively promote from within and invest in the personal growth of our employees.

Candidates should possess experience with hand tools, mechanical repairs, electronics repair and troubleshooting. Optical design, assembly or alignment experience is a plus.

Come see what Mazak Optonics Corporation is about. Come grow with Mazak. Come grow yourself.

Job Type:

Full-time

COVID-19 Considerations:

Mazak Optonics follows CDC guidelines and asks traveling employees to respect requests for health and safety requirements from customers while on site.
