

## Higher productivity for large workpieces Multi-Tasking machine INTEGREX e-1600V/10

Yamazaki Mazak Corporation (President: Tomohisa Yamazaki, Address: Oguchi-cho, Niwa-gun, Aichi-pref.) has announced the start of sales of the INTEGREX e-1600V/10. Sales will begin at JIMTOF2014 on October 30.

The INTEGREX series was developed in 1987. With its production innovation, the series became synonymous with multi-tasking machine. As the demand for the machining of large workpieces increased, Yamazaki Mazak developed the multi-tasking machine INTEGREX e-series for varied industries including shipbuilding, aerospace, wind-power generation and construction machinery.

The INTEGREX e-1600V/10 is designed for higher productivity. All operations completed in a single workpiece setup. The machine features a large machining area and heavy-duty cutting performance. A wide variety of factory automation equipment for unmanned operation is optionally available. The INTEGREX e-1600V/10 is equipped with the new MAZATROL SmoothX CNC system designed for faster performance and increased ease of operation.
