FEATURED MACHINES

YOU DON'T HAVE TO BE BIG TO BE POWERFUL

Combining exceptionally small footprints with best-in-class spindle speeds, Mazak's VC-PRIMOS and QT-PRIMOS machines prove that great machines can come in small packages.

Developed as entry-level options for machine users new to Mazak technology, the PRIMOS range offers both turning and vertical machining capability, with easily integrated automation options that can take your productivity to the next level.

VC-PRIMOS

Focusing on after-sales support

Our commitment to excellence extends far beyond machine supply and specification – with training, project engineering, application support and service packages at the forefront for our Service Dept.

Find out more by clicking the link, and remember to download the Mazak Services & Spares app too!

Continued investment

Announcing the completion of the first construction phase of our new Inabe Plant in Japan, our investment into this new factory has been a response to the increasing demand for large machine tools.
