Next generation manufacturing - The MAZAK iSMART Factory Utilizing MT Connect

Yamazaki Mazak is announcing a major upgrading of the Oguchi plant in Japan which will feature unmanned operation systems incorporating advanced robotic technology with 5-axis and multi-tasking machine tools equipped with the new MAZATROL SmoothX CNC system. The machines will be closely monitoring by new factory management software that uses MT Connect - which will be its first installation in Japan.

The name of this new facility is the MAZAK iSMART Factory, this same concept will be utilized by all 10 Mazak factories around the world in the near future. Its use will make it possible to produce even more advanced machine tools with higher quality and shorter delivery times to customers worldwide.
