

Start the sales of Liaoning plant products in Turkey

Yamazaki Mazak Corporation (President: Tomohisa Yamazaki, Address: Oguchi-cho, Niwa-gun, Aichi-pref) has announced that they will start the sales of the machine tools manufactured by Yamazaki Mazak Machine Tool (Liaoning) Co.,Ltd in China for European market, starting in Turkey.

Total 6 machines including the QUICK TURN SMART series (200 L, 250 L, 200M L, 250M L), a compact CNC turning center for mass-production, and the VERTICAL CENTER SMART series (430A L, 530C L), a compact vertical machining center will be exhibited in the showroom of Turkey Technology Center, and will be started selling from the open house ceremony on May, 2014.

Yamazaki Mazak Machine Tool (Liaoning) Co.,Ltd is the second Yamazaki Mazak production plant in China and has started operation since March, 2013 following the Ningxia Little Giant Machine tool Corporation which was established in 2000. The Liaoning plant produces above CNC machining center and vertical machining center as 50 units per month, targeting 100 units per month by the end of 2014. As the price competition of commodity machines increased around the world, the Liaoning plant was established to provide high quality machine tools with competitive price and has already started exporting to Japanese market since April, 2013. Meanwhile, Ningxia Little Giant plant products are targeting only Chinese market.

This time, by increase the product output, the selling will continue to expand not only in Japan, but also in Europe, starting in Turkey. The sales target of the machines is 20 units per month in Europe and then the machines will start selling in Russia, South America, and Southeast Asia one to another.

Yamazaki Mazak Machine Tool (Liaoning) Co., Ltd. provides high quality production equipment. Components are machined by Mazak's advanced machine tools and assembled by experienced employees who have undergone extensive technical training, the same as the employees of NINGXIA LITTLE GIANT MACHINE TOOL CO.,LTD,. Additionally, the machines produced in China are made to Mazak's exacting global standards and undergo a thorough inspection procedure. Before they are shipped to customers, all machines have the same inspection preformed in Japan.

Yamazaki Mazak provides unsurpassed before and after sales service and support through a global network consisting of a total of 79 Technical Centers and Technology Centers.
