

MAZATROL

#1 CNC CONVERSATIONAL PROGRAMMING PLATFORM

for maximized machine performance and ease of use.

MAZATROL 1981

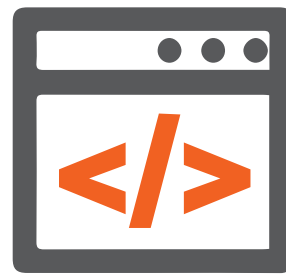

improving shop productivity since

INDUSTRY'S EASIEST TO LEARN AND USE

Thanks to an intuitive touch screen interface and numerous graphical help screens

FORGET G&M CODES

MAZATROL handles most G & M codes without user interaction, but when needed, common G & M codes are labeled for quick selection

Auto calculate missing print dimensions, extract geometry from 3D models, auto set cutting feeds/speeds and quickly access embedded machine manuals all for

REDUCED PROGRAMMING TIMES

Advanced machining cycles for

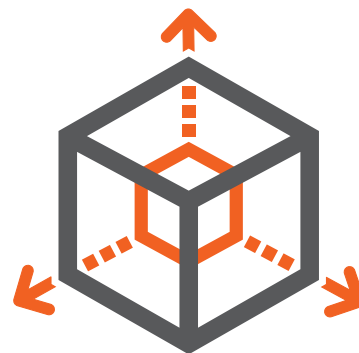

HIGHER PRODUCTION OUTPUT

with Intelligent Pocket Milling, SMOOTH Machining Configuration, incremental OD turning cycles, XC-axis machining cycles and SMOOTH Engraving

Train new operators in **DAYS RATHER THAN MONTHS** with conversational **Q&A format**

SEE IT BEFORE YOU RUN IT and eliminate errors with instantly created 3D part models from **Quick MAZATROL**
