

CAREER OPPORTUNITY

Installations Technician

Mazak Optonics Corporation is a world leader in industrial laser cutting technology. We presently have openings for Installations Technicians. Successful candidates will possess a positive attitude and take pride in their work. This position is based in Elgin, Illinois, but does require 100% travel within North America Monday through Friday.

Responsibilities

- Perform proper machine installation and standard maintenance.
- Perform customer training on machine operation and maintenance.
- Analyze machine/user malfunctions and resolve in a professional manner.

Competencies and Qualifications

- A minimum of a Technical Associates Degree or the equivalent experience with hand tools, mechanical repairs, electronics repair and troubleshooting.
- Possession of a valid driver's license and passport

Work Environment

- The work environment is a typical factory environment that requires the ability to interact with employees, customers and vendors on regular basis.
- The noise level in the work environment may be noisy with extreme temperature changes.

Physical Demands

- While performing the duties of the job, the employee is frequently required to stand, walk, sit, kneel, squat, bend, climb and reach.
- The employee must occasionally lift and/or move 50 lbs or more.
- Specific vision abilities required by this job include close vision, distance vision, and ability to adjust focus.

Starting salary is commensurate with experience. Mazak offers a highly competitive benefits package including 401K, health, dental, vision, life insurance and paid time off.

In order to be considered for this position, candidates must submit a resume, which includes applicable work experience and any applicable education to Larry Pollastrini at lpollastrini@mazaklaser.com
